

Product overview

Mokveld provides the gas and oil industry with expert knowledge and highly advanced engineered valve systems for critical control and safety applications.

Control

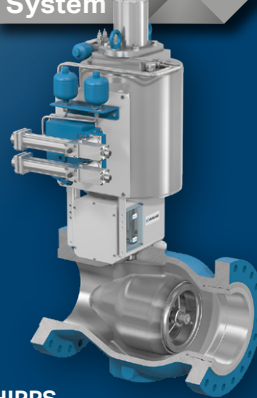

Axial control valve
Streamlined flow path design for demanding applications

Safety

Axial on-off valve
Balanced piston valve for special applications

System

HIPPS
Mechanical or electronic High Integrity Pressure Protection System

Subsea

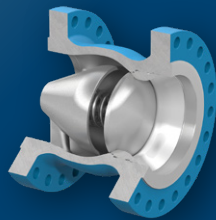

Subsea axial control valve
For optimum control of subsea processes

Control

Axial choke valve
Symmetrical flow path shaped for erosive applications

Safety

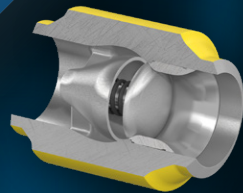

Axial check valve
Fast acting non-slam protection for critical applications

System

Axial Typhoon Valve System
Low shear axial control technology for enhanced separation

Subsea

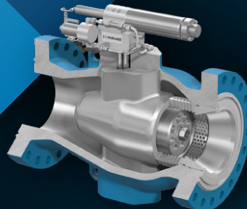

Subsea axial check valve
Maintenance free, fast acting non slam protection

Control

Angle choke valve
Versatile heavy duty valves for severe applications

Safety

Axial surge relief valve
Pilot activated surge protector for liquid applications

System

Angle Typhoon Valve System
Low shear angle control technology for enhanced separation

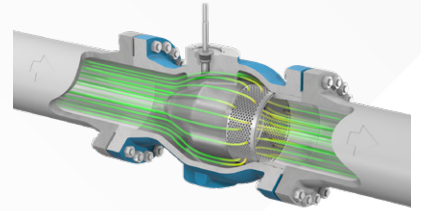

Subsea

Subsea axial on-off valve (HIPPS)
Severe duty on-off valve for quick-acting safety applications

Mokveld, experts in axial valve systems

Mokveld offers high-quality axial flow valves. These valves are the culmination of generations of ongoing, high-quality research, and an in-depth knowledge of our customers' processes and operating practices. Customers can rely on global service and support capabilities. This enables us to meet your needs, no matter where you are in the world. For more information and contact details please visit our website mokveld.com

Mokveld service and support

Engineering support

- Process engineering and system lay-out
- Valve sizing and selection
- Technical information and budget pricing

Operation and maintenance

- Valve operation and maintenance training
- Commissioning
- 24/7 Field service and support
- Spare parts program

Performance services

- Mokveld valve diagnostics for predictive maintenance
- Upgrading, modification and recertification
- Verification and improvement of process performance

Global network - supported locally

- 1 Mokveld Valves BV
- 2 Mokveld USA Inc
- 3 Mokveld UK Ltd
- 4 Mokveld Norge AS
- 5 Mokveld Central Europe GmbH
- 6 Mokveld Marketing JV
- 7 Mokveld Valves BV, Middle East
- 8 Mokveld Valves BV, Asia Pacific
- 9 Mokveld Valves BV, China
- 10 Mokveld Valves BV, Algeria
- 11 Mokveld Do Brasil Ltda

Mokveld Valves BV, experts in axial valve systems.
